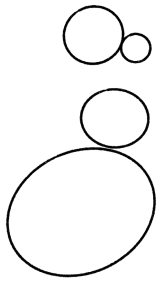
Let's Draw a Kangaroo!

Little Passports SUMMER CAMP in a Box

Fun Fact: The red kangaroo can travel 25 feet in one leap!

1

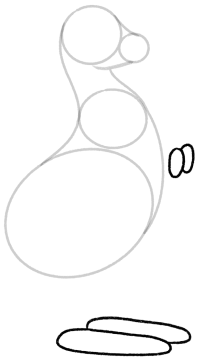


Lightly draw four circles. They will form the shape of the head and body.

2

Connect the circles with four curved lines.

3

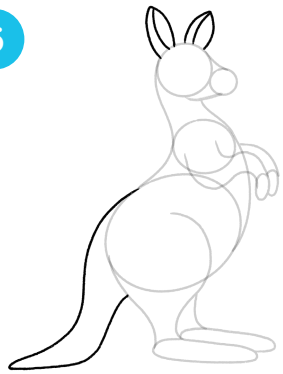


Add two ovals for paws, and two hot-dog shapes for feet.

4

Add curvy lines to form the arms and legs.

5



Add pointy ears and a long swooping tail.

6

Add an eye and nose.

7

Trace over your light lines. Try adding zigzag lines for a furry look.

Color it in if you'd like!
